

Software Release Version 9V

TLS-450PLUS and TLS4 Series Consoles

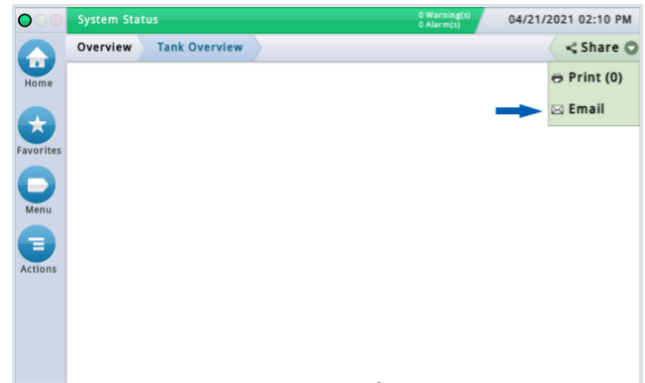

Purpose

This document announces the release of version 9V software for the TLS-450PLUS and TLS4 series consoles.

► Performance Enhancements

Version 9V includes the following enhancements:

- Mitigation of 879 Common Vulnerabilities and Exposures (CVE) for greater security.
- Addition of the “Share Email” button to send a screen capture of the current console display via email. This easy-to-use interface allows for multi selection of pre-set users or address book contacts along with a custom email entry box. This feature requires a SMTP Relay to be configured under:
Menu → Setup → Communication → SMTP Relay

► Software Upgrade Kit – TLS-450PLUS, TLS4 Series Consoles

Software upgrades are always free to download on our website at veeder.com/us/software-downloads.

Software upgrades can also be ordered on a USB Flash drive at no charge by ordering the software kit part number in the table below.

Part Number	Description	List Price
330020-744	TLS-450PLUS, TLS4 Series Operating Software Upgrade	No Charge
